22-27, 2023

SAALBACH-
HINTERGLEMM
AUSTRIA

**IMPLANTOLOGY
PERIODONTOLOGY
PROSTHETICS**

Dear Colleagues,

Welcome to our 8th international meeting focused on both innovations and state-of-the-art clinical knowledge and techniques in Dental Implantology.

Several workshops will provide excellent training for surgical and prosthodontic procedures. In small group "expert meetings" controversial and innovative clinical topics will be discussed.

High standard lectures with world renowned teachers will provide clinically relevant new knowledge and expertise.

Saalbach-Hinterglemm is a most attractive ski-resort and the congress venue in the Alpine Palace hotel offers superior facilities for our seminars and workshops.

The symposium will be of interest to a wide range of clinicians and our enthusiasm will be a promise for a most stimulating atmosphere to combine high class continuing education and a refreshing change from our daily clinical work-load.

Martin Lorenzoni

Michael Payer

Christof Pertl

The image shows three handwritten signatures in blue ink. The first signature on the left is 'M. Lorenzoni', the middle one is 'Michael Payer', and the one on the right is 'Christof Pertl'. The signatures are written in a cursive, flowing style.

INFORMATION

Our approved concept of clinically oriented continuing education will be again based on three different formats of teaching and learning augmentation.

The Workshops:

Don't miss to improve your skills and practical know-how in these intensive hands-on-training courses. A broad spectrum of topics, such as soft and hard tissue augmentation, complication management, application of piezo surgery, immediate implant placement and others, will be covered during the week.

Meet the experts:

In these presentations and discussions we are gathering in small groups to learn, repeat and explore specific themes. It is like an exchange market of opinions under the guidance of experts in the field who bring in their knowledge and experience in an open and honest way.

The Seminar:

The afternoon lectures will include a wide range of subject areas of dental implantology and beyond. As we are meeting for an entire week in a very relaxed atmosphere you will get to know deep insights in the clinical concepts and techniques of the experts we have invited to share their experience with you. You will have much more proximity and ample opportunities to ask and exchange ideas and discuss your own cases. You will be impressed!

Side events and activities

in addition to the comprehensive scientific programme participants have the opportunity to meet new and old friends and to use the charming and relaxed atmosphere for networking.

SUNDAY JAN. 22

W&H Day

12:00 - 13:00 **Registration and Welcome Reception**

13:00 - 16:00 **Workshop**

Innovative Oral Bone Augmentation with Piezo Surgery
(C Pertl, M Payer & K Bertl)

14:00 - 15:30 **Paneldiscussion**

16:30 - 19:00 **Seminar**

Piezo Surgery

- 16:30 - 17:00** Complex Implant Cases - The Interdisciplinary Approach (A Sokolowski)
- 17:00 - 17:30** Management of Peri-Implantitis: A Pragmatic Approach (K Bertl)
- 17:30 - 18:00** Afternoon Tea & Coffee
- 18:00 - 18:30** A new approach how to use Osstell: ISQ as a guide in implant rehabilitations (S Trasarti)
- 18:30 - 19:30** Nerve Transpositioning - A 20 Year Experience (M Tamimi)

MONDAY JAN. 23

Camlog Day

08:00 - 09:00 **Registration**

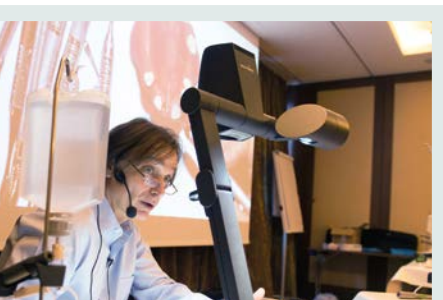

09:00 - 12:00 **Workshop**

Cerec meets Camlog -The Digital Workflow
(F Hermann)

16:00 - 19:00 **Seminar**

Go Digital or Stay Analog

- 16:00 - 16:30** Socket Seal Surgery and Connective Tissue Grafts
(S Stagnell)
- 16:30 - 17:30** The Digital Workflow in Implant Therapy -
Chances & Pitfalls (F Hermann)
- 17:30 - 18:00** Afternoon Tea & Coffee
- 18:00 - 19:00** Treatment Efficiency - Conventional vs Digital
(F Hermann)

WEDNESDAY JAN. 25

Straumann Day

09:00 - 12:00 **Workshop**

Immediate Implant Placement and Restoration of the Edentulous jaw
(L Fürhauser, G Mailath Pokorny jun.)

16:00 - 19:00 **Seminar**

Current Concepts & New Ideas

- 16:00 - 16:45** Pros and Cons of different Surgical Concepts in the Edentulous Patient (G Mailath Pokorny jun)
- 16:45 - 17:30** Pros and Cons of different Prosthetic Concepts in the Edentulous Patient (L Fürhauser)
- 17:30 - 18:00** Afternoon Tea & Coffee
- 18:00 - 19:00** Clinical Case presentations (K Gurzawska-Comis, E Steyer)

EXZELLENZ IN DER SOFORTVERSORGUNG

Straumann® TLX Implantatsystem

Legendäres Tissue Level trifft auf Sofortversorgung.

FÜR SOFORTVERSORGUNGSPROTOKOLLE AUSGELEGT
Vollkonisches Implantatdesign für optimierte Primärstabilität.

ERHALT DER PERIIMPLANTÄREN GESUNDHEIT
Geringeres Risiko einer bakteriellen Besiedelung und optimierte Reinigungsfähigkeit.

EINFACHHEIT UND EFFIZIENZ
Dank des einzeitigen Verfahrens mit einer Versorgung auf Weichgewebeniveau kann die Behandlungszeit effizienter genutzt werden.

Das Design des Straumann® TLX Implantats berücksichtigt die biologischen Schlüsselprinzipien der Hart- und Weichgewebeheilung. Durch die Verlagerung der Implantat-Sekundärteil-Schnittstelle weg vom Knochen ist das Risiko für Entzündungen und Knochenresorption signifikant reduziert. Kontaktieren Sie noch heute Ihren zuständigen Straumann Mitarbeiter oder besuchen Sie unsere Website unter www.straumann.com/tlx
